- Zoom software (free)

Who is this course for?

Our Discover English course is for our youngest learners, aged **8-11**, who wish to learn and improve their English while taking part in a range of exciting online activities with new friends from all over the world.

SUMMARY

Course Content

Students will follow a weekly programme of 6 hours of live English lessons, 1.5 hours of conversation club and a choice of daily activities to take part in. Activities include music, art, drama, scavenger hunts and more.

All lessons are delivered by qualified English teachers who specialise in supporting students in an online environment. Using National Geographic Learning e-coursebook Our World, students will learn more about the world around them and develop a range of 21st Century skills. Lessons will focus on cross-curricular topics to engage learners and encourage them to express themselves in English.

During their course, students will have access to online materials to follow their lessons and complete homework. All course participants will also have the opportunity to enter a writing competition in conjunction with National Geographic Learning to win some exciting prizes!

As well as English lessons, our social programme allows students to continue to learn in a fun and relaxed international environment. Students practise their English inside and outside of the virtual classroom, for the best learning experience.

Learning Outcomes

- ✓ Improve their spoken English
- ✓ Increase their vocabulary
- ✓ Make new friends from around the world
- ✓ Discover new cultures and concepts through National Geographic Learning coursebooks
- ✓ Learn to use new technology
- ✓ Learn in a fun and exciting online environment
